

SEASONS OF CODE 2024

Sentiment Analysis and Text Generation using Many-to-One LSTMs

Mentors: Shreyas Katdare & Dion Reji

Date: May 27, 2024

Week 1 - Assignments

We'll kick things off with Python and some essential packages. If you are familiar with these, chill! If not, here's how to jumpstart your journey:

1. A detailed Tutorial (pdf) for python can be found in the files section of the GitHub repo. Refer to chapters 3,4,5,7, and 9 of the document to learn the basics of Python. (If you already know Python, you may use these to review/recall your Python knowledge). If you need a You-tube tutorial, [Click here](#).
2. `numpy` is a powerful and useful package extensively used in Machine Learning. You can find a detailed `numpy` tutorial (pdf) in the files section of the repo. Refer to Chapter 3 to get started with `numpy`. For a You-tube `numpy` tutorial, [Click here](#).
